

Water Drop Patch Project

The popular Water Drop Patch Project, co-produced by Girl Scouts of the USA (GSUSA) and the U.S. Environmental Protection Agency has been given a face-lift!

The manual is designed for adult's use with Girl Scout Brownies through Ambassadors (grades 2-12) and is divided into grade-level, age-appropriate activities aligned to the new Girl Scout Leadership Experience. Updated information and new and expanded girl-lead, learning by doing and co-operative learning activities help Girl Scouts:

The Water Drop Patch Project inspires Girl Scouts to learn about water quality and to take action in their communities to protect and restore local water resources.

- *Discover* water-related environmental issues and explore their own beliefs and values
- *Connect* with one another to educate their communities about the need to protect the Earth's valuable water resources
- *Take Action* by making positive impact such as changing household practices that contribute to pollution, conducting streamwalks and clean ups, testing water quality, building rain gardens and creating outreach videos.

To obtain more information about the Water Drop Patch Project and download the manual visit www.epa.gov/adopt/patch. Free hard copies of the manual can be ordered by calling the National Service Center for Environmental Protection at 1-800-490-9198 or emailing: nscep@bps-lmit.com. Ask for EPA document #EPA 840-B-07-001. Patches can be ordered from the GSUSA online store <http://goshop.girlscouts.org/gsusaonline/> or at Girl Scout council shops.
